

INDUSTRIAL WASTE WATER TREATMENT SYSTEM

Total Water Management

To keep in pace with the rapid growth of our country's industrialization, besides the proven conventional waste water treatment system we have devoted much of our effort and resources in our Research and Development sector in developing waste water recycling in areas like metal finishing, electronic and semi-conductor industries.

With our expertise, we aim to protect and preserve our environment whilst assisting our customers with their requirements and needs on water treatments.

Waste Water Treatment For Aerospace Industries

Waste Water Treatment System For Heavy Metal Removal

Biological Treatment System

Rubber / Nitril Manufacture
